The "Handy Handle Hinge" Is the Handiest Kind of an Arrangement For a Mop.

THIS IS THE LATEST IMPROVEMENT TO THE

Genuine O'Cedar

Polish Mop **75c**

Tomorrow's Special Demonstration Price.....

Users of O'Cedar Mops have felt that there couldn't be much to improve in these already excellent mops, but now they are ready to acknowledge this "latest thought" is really a decided improvement over the original hand mop.

O'Cedar Mops are easy to clean, easy to operate and do the job in good order with very little effort on the part of the user. The user of the O'Cedar mop is also assured that the mop can be used after washing to give the same good service as at first. The O'Cedar mop is the latest improvement to the mop, and its special demonstration price of 75c, tomorrow's special demonstration price of the Housefurnishing Store—Third Floor.

Women's Furnishing Store—Second Floor.

FINDS IRON ORE RATE FROM MESABA TOO HIGH

I. C. C. Orders Cut From 60 to 55 Cents or Less Per Long Ton to Lake Ports.

The existing rate of 60 cents per long ton on iron ore from mines on the Mesaba range, in Minnesota, to vessels at Two Harbors and Duluth, Minn., and Allouez bay, Wis., has been pronounced unreasonable by the Interstate Commerce commission, and the Great Northern and other railroads were ordered to establish a rate not more than 55 cents.

The case is one of the most important decided by the commission in several months. The Great Northern alone carried more than 13,000,000 long tons of ore to docks from Minnesota mines in 1913.

The report says the United States Steel Corporation indirectly controls the Duluth and Iron Range Railroad Company and the Duluth, Missabe and Northern Railway Company, and owns the larger portion of ore shipped over them.

It was argued that a rate in excess of a reasonable rate would be tantamount to a rebate to the steel corporation, and that was not contradicted by the carriers.

The commission's investigation disclosed immense earnings by the roads.

DR. GEORGE C. OBER RESIGNS. Gives Up Place on Board of Allopathic Medical Examiners.

The resignation of Dr. George C. Ober as a member of the board of allopathic medical examiners was submitted yesterday to the District Commissioners. Appointment of his successor may not be made for several weeks.

Dr. Ober's request for retirement from the board came as a surprise to the Commissioners, and they have given no thought to the problem of filling the vacancy. It is expected that they will take plenty of time, as effort will be made to get the best man available for the place.

Dr. Ober had served on the board since June 15, 1896, and the term of his last appointment was to have expired June 15. His reason for resigning was that he felt he had served the board long enough.

STRUCK BY CAR, HE DIES. William Coates, Colored, Fatally Injured on W. B. & A. Line.

William Coates, colored, twenty-four years old, was struck by a car on the Washington, Baltimore, and Annapolis line, at 48th street and Deane avenue northeast, last night about 8:15 o'clock and so badly injured that he died at Casualty Hospital three hours later.

Coates, who resided at 48th street and Sheriff road, alighted from an eastbound Washington Railway and Electric Company's car at 48th street and started in the direction of his home. A westbound freight car from Baltimore struck him and hurled him from the track.

Charles Coates, a neighbor, called to him that the car was approaching, the police were informed, but he failed to heed the warning in time to save himself. Coroner Nevitt will hold an inquest at the morgue tomorrow morning.

Dr. W. W. Keen Honor Guest. Dr. W. W. Keen, a trustee and fellow of Brown University, who is in Washington delivering lectures at the Army Medical School, was entertained at lunch at the Cosmos Club yesterday.

Among those present to welcome Dr. Keen were Gen. George M. Sternberg, Dr. L. A. Bauer, Dr. M. N. Sullivan, E. B. Burnett, E. J. Huntington, R. L. Brown, Dr. Haven Metcalf, Dr. M. W. Lyon, H. K. Porter, E. W. Weikert, E. J. Gillespie and W. C. Carpenter.

M. JULES BOIS OF FRANCE TO TOUR THIS COUNTRY

Will Investigate Higher Branches of Education and Agriculture for His Government.

Jules Bois, prominent French author, dramatist, critic and man of letters, is in Washington for a brief stay prior to starting on an official tour of the country in which the French government is taking much interest. M. Bois has been invited by the French minister of foreign affairs, M. Delcasse, the minister of commerce, M. Gaston Thomson, and the minister of agriculture, M. David. M. Delcasse refers to the distinguished literary position of M. Bois as equipping him to present the actual conditions existing in France today.

To Report on Two Subjects. The minister of commerce commissions M. Bois to examine and report on the higher branches of education in the United States, and in agriculture he is to examine into the part this government is taking in seconding the work of the farmer.

Henry White, former American ambassador to France, and Mrs. White, entertained in honor of M. Bois at dinner last night. He is to be received this afternoon by Secretary Bryan. Arrangements are being made for a conference to newspaper men on French affairs at the National Press Club, probably tomorrow night. Many social attentions are being shown the distinguished French visitor through letters from Jules Cambon, former French ambassador at Washington, and other prominent French officials.

Member of Many Societies. M. Bois is vice president of the Society of Men of Letters, secretary of the French authors' foreign travel fund, chevalier of the Legion of Honor, and a leading figure in the organizations of French dramatists, critics and authors. He has written a score of books on poetry, plays, romances, and a number of scientific studies in psychology.

He is recognized in France as the leader of the "feminist" movement, corresponding to the woman suffrage movement in this country. He is expected to address a meeting of local suffragists while here.

WHITE HOUSE FURNITURE IS DAMAGED BY BEETLE. Serious damage has been done to the beautiful furniture of the red room of the White House by a beetle that has literally riddled the hair padding of the costly pieces. A specimen of the bug is to be sent to the bureau of entomology of the Department of Agriculture for examination and report and the furniture is to be sent for repair.

Experts of the department who were asked today to give a history of the bug said they could not do so until they saw a specimen, as there are several kinds of beetles that exist upon the hair of furniture and upon furniture itself. Furniture workmen in Washington call the insect "the cigarette bug," but at the Department of Agriculture it is said the cigarette bug is a small brown beetle seldom over the sixteenth of an inch long.

The red room of the White House, and thousands of them have left little of the hair in the chairs and other pieces of furniture—a mottled fellow with little spots of red and orange and dingy white. He has wings and antlers to have thrived on his diet. Scientists who have not seen the specimen are under the impression that it is what is known as the dermestid beetle. It is said that the same beetle wrecked some of the parlor furniture of the White House a year ago. Scientists are to take steps for obliteration of the beetles from the White House after the furniture is repaired.
